

Putting People First Personal Budgets DVD

Your Life,
Your Support,
Your Way

Personal Budgets are for people who need social care.
Find out how Personal Budgets give people more
choice and control over the way they live their lives.

Putting People First sets out the Government's vision for social care over the next ten years. Helping people to remain as independent as possible is at the heart of Putting People First. If people need long-term support, they should have more choice and control in deciding how their social care needs are met.

What is a Personal Budget?

Through a process called **Self Directed Support**, people who are assessed as needing long-term support will have a **Personal Budget**. With a Personal Budget people will know exactly how much money is available for their care and support needs and can control how it is spent.

Personal Budgets are currently being rolled out across Nottinghamshire and it's really making a difference to how people live.

From October 2010:

- people who need social care will receive a Personal Budget
- people who are currently receiving social care funding will also move onto a Personal Budget as part of their review.

About this DVD

This DVD explains more about Personal Budgets and includes local people talking about the difference this has made to their lives.

The DVD is in **three parts**:

- 1 The first is an introduction to Putting People First. In this part we explain what this means.
- 2 In the second part service users and carers talk about how Personal Budgets have improved their lives.
- 3 We know there are a lot of questions about Putting People First and in the third part we answer some of the queries which have been raised by service users and carers.
